FRIDAY AUGUST 14th, 1942

NUMBER 16

Changes Affect Air Force Trainees

Royal Canadian Air Force headquarters have announced through No. 2 R.C.A.F. Recruiting Centre at Calgary, a change in the pay and allowance regulations governing all trainees in attendance at the various War Emergency Training Plan schools and future enlistments. The change to be effective August 16th.

To the present, recruits for various air force categories and trades which required training at a "pe-entry school", were provided for under the Dominion-Provincial War Emergency training plan. The various Provincial and Dominion governments shared equally in providing a subsistence allowance of \$10 weekly in the case of single men and \$15 for married men. Now these R.C.A.F. trainees will be considered as any other enlisted airman and receive the regular pay and dependent's allowances. Where quarters and rations are not provided \$1.00 per day additional is paid in lieu of same.

With many of the handicaps which prevented prospective recruits desirous of entering the R.C.A.F. in a W.E.T.P. instructed trade now removed, officials at the Calgary R.C.A.F. recruiting centre anticipate a rush of applicants for academic training for aircrew duties and in the various mechanical trades affected. Besides the aircrew school at Edmonton where recruits with insufficient mathematical and science education for aircrew duties are trained, W.E.T.P. Air Frame Mechanic schools are operated at Medicine Hat and Calgary. Aero-Engine Mechanics and Wireless Operators (Ground) are trained in Calgary.

All students attending the schools at present are enlisted men in the Air Force "On Leave Without Pay" for the duration of the course. These are to be immediately recalled from leave and placed on regular Air Force pay and allowances basis from August 16th. There is sure to be a general rejoicing in the various schools at this news, as it will mean an increase of about \$6.00 weekly for single men drawing subsistence allowance. Wives of trainees under the new arrangement will receive the separation allowance of \$35.00 per month. Dependent children (boys under 16 and girls under 17) up to four are provided for with allowances of \$12.00 each for the first two children, \$9.00 for a third child and \$6.00 for the fourth child per month. The married man must assign fifteen days pay to his wife.

The capacity of the W.E.T.P. schools in the Calgary district has been enlarged to almost double in anticipation of the impetus in recruiting which will probably be the result of this announced change in policy.

Golfer (far off in the rough): "Say caddy, why do you keep looking at your watch?"
Caddy: "It isn't a watch, sir; it's a compass."

Teacher: "If you have ten potatoes and must divide them equally among three persons, how would you do it?"
Johnny: "I'd mash them."

"What are you raising in your garden this year?"
Johnson's Plymouth Rocks, Brown's Leghorns and Smith's Wrenches."

NEWS NOTES

Mrs. Preston was a Cardston visitor last week-end with friends.

Geo. H. Brewerton was a business visitor in Calgary this week, leaving Tuesday evening.

Avard Hawkins returned to Eastern Canada this week after spending two weeks vacation with relatives and friends here.

The Mercantile received 2 cars of cement and a car of lumber this week. One car of the cement went to the new Cheese Factory.

Mrs. Bert Quinton, and daughter LaVeve and son DeVoe were visitors in Raymond for a few hours last Friday afternoon. The son and daughter are now living in San Francisco.

Aw2 Nova O'Brien from the Claresholm Air Training School was home on leave last Friday returning to her work in the Telephone office Saturday morning.

Mrs. Ted Hodson and family are enjoying a vacation here with relatives and friends. Mrs. Hodson is a daughter of L. L. and the late Mrs. Pack. The Hodson's now live at Chilliwack, B.C.

Mr. and Mrs. Evans Sabey, and Guy and Evelyn spent the week-end in Magrath with relatives. Misses Winnifred Mitchell and Vera Meldrum were also in Magrath Sunday.

Miss Wilma Plepgrass left for Dayton, Ohio, on Tuesday where she will work in the offices of the British Air Commission. She will reach Dayton on Sunday. We wish her every success and much happiness in her new surroundings.

Kenneth Hague, who is in the Army Postal Corps in Ottawa, has been home on leave the past ten days. Ken is looking fine and says he enjoys his work. He reports the other Raymond people in Ottawa as all enjoying good health and their work.

Mr. and Mrs. Raymond Bascom are here from East End, Sask., for a visit with relatives and friends. We are pleased to report that Ray is feeling better and seems to be improving from his serious illness and operation.

Mr. and Mrs. Nephi Anderson of Burbank, Cal., are here for a two or three weeks visit with friends and relatives. Nephi is a brother of J. LeRoy Anderson and Mrs. Anderson is a daughter of Mr. and Mrs. Geo. Fairbanks, and both are former Raymondites and have a host of friends here.

At Rotary meeting Monday, J. O. Hicken gave an interesting talk on Life Insurance trends, and quoted some statistics showing a steady increase in the amount of insurance during the war years. Special guests at Monday's meeting were Pte. John Roberts and David G. Wood. In the absence of President Warren, who was in Red Deer, Vice-Pres. J. S. Madill took charge of the meeting.

Hospital Petitions Accepted

The petitions from the councils of Warner, Sugar City and the Town of Raymond have all been mailed to the Department of Health, and have been accepted. Petitions are now circulating in the unorganized territory just east and south of the boundaries of Warner M.D., and when these petitions are ready and are mailed to Edmonton, if they are accepted by the Department, a date will be set for a vote on the erection of Municipal Hospital District to serve Raymond and district and the country south-and-east on the Sunshine Trail.

We are glad to note that Magrath and district voted "Yes" about 97 p.c. strong for their Municipal Hospital, and we hope that when our vote is taken here, that the same proportion will say "Yes" for a hospital here. There are so many advantages to a municipal hospital, compared to hospitalization of any other kind, except state medicine, that it seems a waste of time to put forth a lot of argument one way or the other. Everyone, at some time or another needs a hospital. It maybe you, tomorrow. We find it more costly and inconvenient, and dangerous all the time to have to go to Lethbridge, and with the shortage of nurses, and crowded accommodations, even this does not always guarantee admittance.

One of the strongest arguments in favor of a municipal hospital is that while we are paying in advance for our hospital service when we are ill, instead of \$3.50, \$4.00 or \$4.50 a day piling up for us to meet when we get up our charges are \$1.00 per day, so we rest easier and get well faster, due to not having to worry about paying the shot.

When Cardston is advertising for a full time Secretary for their Hospital district, which would be about the same size as our proposed district, it seems

that there is not much danger in boosting and starting a Hospital District here. Cardston started in a very small way, but over the years in good seasons and in bad, through prosperity and depression, she has been adding accommodation, equipment, staff and patients until today, with thirty beds and ten cribs, Cardston has one of the leading Municipal Hospitals of the district, operating at a cost of \$3.00 per patient per day; the contract patient paying but \$1 per day for this service while in hospital. Her buildings and equipment are all paid for, a new laundry is being installed this summer, and in every way Cardston is serving the district economically to the taxpayers and profitably to the district. There is a sample for Raymond to aim at. Brooks and Taber districts, are just getting ready to proceed, Taber having just received permission to sell her bond issue for her building.

To those unfamiliar with the set-up and operation of a Municipal Hospital there may be some question as to its value and service. To those who have lived near and had service from a Municipal Hospital there is nothing but praise and 100 p.c. support for the scheme. It belongs to the taxpayers, the Board is accountable to and is elected by the taxpayers, and the progress and up-keep and equipment of the institution are controlled through the Board by the Ratepayers. Don't mull this opportunity. We let one slip away, the best one we will ever have. Let's capitalize on this, even if its supporters have to walk to the polls to vote for it. We need it badly. If you don't today, your neighbors, and it may be your turn tomorrow. And, if you never need it, it is the best sickness insurance you can carry, and if you do stay well, surely you can afford the small additional tax it represents.

NEWS NOTES

H. Spackman of Stirling was a Raymond visitor Friday morning.

Bob Wood, who has been in Colorado for some months past, is at home on a visit.

Miss Iona Plepgrass returned this week from Banff, where she has been employed in a Beauty Parlor. She will work here with Mrs. Della Holt in Hall's Beauty shop.

The cement floor was laid in part of the Cheese Factory this week. The rain Tuesday dripped thru the roof and pitted small holes in a section of the floor which had to be repaired Wednesday.

Malcolm, youngest son of Mr. and Mrs. S.B. Smith jumped out of a tree Tuesday and broke his wrist. He was up about six feet off the ground and figured he could jump to the ground and land safely. He landed on his wrist and broke the bones, which are now set and in a cast.

Reg Cooper has been busy this week putting the wire and paper on his house in preparation for succoring it before winter sets in.

Bert Vargo, who has been working at Meeks' lease for some time, had four ribs broken on Thursday when a horse stepped on him, and he had to be taken to the Hospital for repairs.

J. H. Blackmore, leader of the New Democracy group in the Dominion House was a bus passenger to Cardston last Friday night returning to his home in Cardston after the recent session.

Speakers at the 2nd Ward Sunday evening meeting were Misses Wilma Sorenson, Vivian Seoville, Eva Palmer and Beth Eveson, all of whom had been away to school within the past year. Each of the girls gave a short and interesting talk. The McBride sisters sang a duet and the choir rendered a special anthem as the musical part of the program.

India Serious Question--- Bitter Fighting In Russia

MUNICIPAL COUNCIL MEETING

The Municipal Council meeting was held on Tuesday, with routine matters and the passing of the pay roll occupying most of the time. The big district brings a multitude of items to the meetings that all demand attention, and it takes a long while to dispose of them all. It was 7:30 p.m. when the meeting closed.

Considerable road work is being done, and other projects discussed. It was decided to gravel north from Stirling to connect with the Sunshine Trail north of Maybitt, and the Council also voted to gravel the first three miles of the Foremost road from the Maybitt station east.

Tax Notices are in preparation for mailing at the Office now, and there will be nearly fifteen hundred of these mailed out to cover the large district.

AIR CADET PICTURE

Negatives of the pictures of the Raymond Air Cadets in their recent camp at Medicine Hat with the Lethbridge squadron have been received by C.O. I. Kitchen, and any one who wishes reprints of the pictures may obtain same by calling at the Kitchen home between 7 and 8 p.m. when Mr. Kitchen will be at home to take your order.

RUSSIAN RED CROSS DANCE CANCELLED

We have been asked to announce this week that the Russian Red Cross Dance has been cancelled and will not be held as we announced last week. Interested parties, please note.

Miss Rosemary Russell, who is a nurse in training in the Edmonton Hospital is visiting here with Miss Winnifred Mitchell.

Mr. and Mrs. David G. Wood of Calgary, are spending a two weeks vacation with relatives and friends here. David is associated with the J.J. Gibbons advertising agency in Calgary.

Following months of unrest, India has broken out in rioting, pillaging and disorder. Ghandi and his civil disobedience campaign has resulted in disorders that have taken several lives and has endangered the position of Britain and the Allied nations at a time when any thing detracting from the business of war is dangerous. However, so far the trouble has been confined to several of the larger centres and no general uprising has taken place.

In our opinion Britain has taken the only safe course and the wisest in refusing independence to India under existing world conditions, and we feel that every loyal Britisher should uphold the action of the Churchill government in its actions. There are so many factions, castes and strains in India, with so much illiteracy on the part of her population that full independence would be very dangerous, especially with world conditions as they are.

Bitter fighting is going on between the Allies and the Japs in the Solomon Islands with the advantage, what little there is being in favor of the Allies. U. S. Marines are fighting for a foothold in these islands as a spring board for attacks on Japanese positions throughout the Pacific.

The Russians are still retreating over many sections of the battlefield, but they are making the Nazi war machine pay a big price in dead and wounded and damaged material for every advance they make, and according to reports, Hitler is still a long way from his objective of the oilfields, with a scorched earth policy in front of him, and trainloads of sick and dying soldiers behind him and a starving nation at home. Russia is still strong and Hitler is sapping the manpower of all his subject nations in a desperate effort to crack the Russian morale, and is not succeeding. How long can he dictate to his thinking hordes and keep them in this losing fight when their price is so high and their future so dismal?

Athol Cooper returned home last week end after completing a course at Summer School in Edmonton.

ALLAN McIVER

Conductor, arranger, instrumentalist, and, as if that were not enough, the possessor of a first rate voice, Allan McIVER could have become a one-man show and won fame in at least five artistic branches of endeavor. Instead, he chose to become one of Canada's leading

musical directors and he has proved his singular wisdom in many years' fine service to the Canadian Broadcasting scene. On Sunday, August 16th, it will be his turn again to mount the podium for the sparkling Sunday Night Variety Show from Montreal, (9.15 p.m., CDT, 8.15 p.m., MDT), heard over Station CBK Watrous (540 Kcs.)

GROCERY SHELVES HAVE EMPTY SPACES

Grocery shelves are beginning to lose their appearance of infinite variety as more goods are going off the market or are subject to periodic quotas. Some of the vacancies are only temporary, a depletion till the new 1942 pack comes in. Other things are gone indefinitely.

Householders depending on canned seafood for the quick meals during summer months are going to have to revise their plans. The whole 1942 pack of seafood has been sold, and this includes canned lobster, salmon, tuna, crab, shrimp, oysters. Only the remnants of old stock are now visible on shelves.

The jello powders and such quick jellied desserts are dwindling or have disappeared. It is said that the sugar restrictions have reduced this prepared product to a quota, and will be difficult to secure. Merchants who handled processed beef in cans found it frozen by the government, so that it could not be moved.

It is said that tapioca is likely to go, though rice is still coming through. Canned pineapple of course, is vanishing. There is depletion of canned fruit, jams and vegetables which will be relieved when the new pack comes in. But the new pack will be limited in sizes of tins.

Not only in this respect are the stores under handicap in catering to their customers. Bananas make only spasmodic appearance, dependent entirely on arrival of shipments, and how quotas work.

This has been a bad strawberry year, owing to wet weather in B.C. and reduced output. It is said that the great bulk of strawberries to the prairies were from Jap growers and the war has removed these sources of supply. Housewives on the prairie have been badly disappointed in getting up their customary strawberry preserves, but the growers over in B.C. subject to an unusually rainy season, have suffered heavy loss.

Merchants in every line are under great handicaps these days. They are subject to many unexpected restrictions, and have little assurance that orders which they send in will be filled.

LOST—Large Black mare 3 years old, No. brand. Bog spavin on left hind leg. —\$10 reward. —Oscar Johnson, Raymond.

"Aye, I sometimes go to the doctor. Doctors have to live, you know. And afterward I go to the chemist with the doctor's prescription. Chemists must live too. When I get home I throw the medicine down the sink."

"Why?"

"Well, I also have to live."

Junior: "Dad I've raised that \$2 I've needed so long."

Father: "Good work, son. A boy worth his salt should try as early as possible to make himself independent of his father and stand on his own feet. How did you do it?"

Junior: "Borrowed it from mother."

WEEKLY LETTER TOO EARLY SEEDING OF WINTER WHEAT DANGEROUS

The acreage that will be sown to winter wheat in Southern Alberta this fall will likely be considerably greater than that of previous autumns. There are different reasons why this should be the case, but the chief one is the fact that this season's crop of winter wheat is, in most cases, returning considerably more profit per acre than is spring wheat.

Previous to last season winter wheat generally sold at a discount of from five to ten cents per bushel under spring wheat. During last fall and winter, however, the market price for winter wheat was generally a little higher than that for spring wheat, and at present there is practically no spread in price.

The past winter was a very mild one and winter wheat crops came through with very little winter killing. The abundant rains of May, June, and July were very timely for the production of a heavy crop of winter wheat. Spring wheat yields this season may, therefore, be considerably lower than those of winter wheat.

The facts mentioned above may influence some farmers to expand their acreage of winter wheat this fall, and others to

sow it for the first time. From experiments conducted at the Lethbridge Experimental Station, and from observations of winter wheat crops in the district in past years, seeding at the proper time should be mentioned as probably the most important factor in growing a successful crop. In the southern part of the province seeding should not be done before September 1, but it is advisable to seed soon after that date. Too early sowing of winter wheat results in the crop being badly infested with root rot. In fact it was the development of root rot that caused the early settlers to change from winter wheat to spring wheat. Seed treatment to control smut is also important. This has frequently been neglected, with the result that in certain seasons too many carloads of winter wheat have graded "rejected" on account of smut.

Of the numerous varieties tested at the Station, none has yet proved superior to Kharkov or the M. C. 22 strain of Kharkov for a wide range of conditions. During the thirty years that Kharkov has been grown at the Station it has only once winter killed completely, and its average yield for the whole period has been practically the same as that of Spring wheat, where both crops have been grown on summer-fallow.

EDITOR VS. LAWYER

Here is something from a "Country Editor's" scrapbook published in 1932 which may well find its way into many other country editor's scrapbook.

THE LAWYER.
I slept in an editor's bed last night,
When no other chance to be
nigh,
And I thought, as I tumbled in
to the editor's bed,
How easily editors lie.

THE EDITOR.
If the lawyer slept in the editor's bed,
When no other chance to be
nigh,
And though he has written and
navely said,
"How easily editors lie,"
He must then admit, as he lay
on that bed
And slept to his heart's desire
That the lawyer himself was the
liar.

British Night Fighter Squadron-Leader Personifies Malta's Resolution to Hit Back

In an attempt to nullify Malta's aggressive value against Axis convoys in the central Mediterranean, nearly 2,000 strong German and Italian air attacks were made between June 1940 and May 1942. Despite these costly attacks, British convoys are still arriving in Malta while the island forces continue to take a heavy toll of Axis supplies attempting to reach Libya.

Picture Shows: A British night fighter Squadron Leader serving in Malta, who has been awarded the Distinguished Flying Cross. Malta's nightfighter force have claimed many victims among Axis night raiders.

Alberta Pacific Reduces Both Street and Carlot Spread

THE ALBERTA PACIFIC GRAIN COMPANY HAS REDUCED BY ONE AND ONE-HALF (1½c) CENTS A BUSHEL THE SPREAD IN THE HANDLING OF "STREET" WHEAT AND HAS ALSO REDUCED BY ONE (1c) CENT A BUSHEL THE SPREAD IN THE HANDLING OF "CARLOT" WHEAT DELIVERED TO THE WHEAT BOARD THROUGH ALBERTA PACIFIC ELEVATORS FOR THE 1942 CROP YEAR.

THIS MEANS NOT ONLY THAT THE "STREET" SPREAD IN BOARD WHEAT HANDLED BY ALBERTA PACIFIC ELEVATORS WILL BE ELIMINATED AND THAT FARMERS WHO DELIVER ON THAT BASIS WILL RECEIVE THE CARLOT PRICE BUT ALSO THAT FARMERS DELIVERING "STREET" WHEAT WILL BENEFIT BY ONE AND ONE-HALF (1½c) CENTS A BUSHEL AND FARMERS DELIVERING "CARLOT" WHEAT WILL BENEFIT BY ONE (1c) CENT A BUSHEL AS COMPARED WITH LAST YEAR'S CHARGES. THE WHEAT BOARD HAS BEEN ADVISED ACCORDINGLY.

THE WELL-KNOWN REPUTATION OF THE A. P. FOR THIRTY YEARS IS THAT IT HAS NEVER TRAILED BEHIND ANYONE IN PRICE AND GRADE GIVEN FOR THE FARMERS' GRAIN.

AN OLD CANADIAN CUSTOM . . .

When our pioneer grandparents had a big job to do they called in their neighbours. A barn raising brought help from miles around. Skilled barn framers took charge; sides were chosen and competition between teams lent interest to the work. This old Canadian custom was revived when Canada's National War Finance Committee was

formed and went into operation. Under the leadership of the National and Provincial Committees—men experienced in the organization and conduct of financial operations—Local Committees were formed in all communities. Cooperation and competition characterized the work. The biggest "raising" in Canada's history got away to a magnificent start.

*Eat Hash-
and like it!*

"I tell my family that as long as Jack is overseas, we'll eat hash and like it."

"WE ARE at war. It costs lots to win. It would cost everything to lose. So I don't figure that because we'll soon pay a small amount as compulsory savings, I can fold my hands and say 'That's that!' No sir! Some people may need compulsory savings to save something for their own good. But that's the minimum. I'm out to save all I can to buy War Savings Stamps and Certificates to help win the war and have something substantial put by for the days when there won't be all this work and overtime."

"I've christened my garbage can 'Hitler' and believe me he doesn't get anything that's worth anything."

Buy War Savings Stamps from druggists, banks, post offices, telephone offices, department stores, grocers, tobacconists and other retail stores. Certificates may be purchased for immediate delivery in denominations of \$5, \$10, \$25 from banks, trust companies and post offices.

National War Finance Committee

WE'VE GOT A BIG JOB TO DO NOW

The War goes on. The National War Finance Committee carries on. Some will serve on the committees organized to promote continued sales of Bonds, War Savings Certificates and Stamps. All of us must continue to buy these securities. We must save every dollar, every cent we can—and lend our money to Canada. We must provide the money required to carry on the war—the money required to win the war.

Our fighters must have more ships and tanks and guns and planes. They must have better ships and tanks and guns and planes than the enemy has. We must all work, and save and lend. The safest investments we can find for our savings are Bonds, War Savings Certificates and Stamps—and they will provide money for us to buy things that we will want when the war is ended.

NEW BREAD NOT POPULAR

Evidence gathered from Western Canada indicate that the expected popular rush to purchase the new Canada-approved bread, containing a larger percentage of vitamins, has failed to develop. It is hard to understand this except on the grounds that food habits are not easy to change. Certainly the new bread is a superior food product to the old.

The Canada-approved bread is used entirely by the army. In Great Britain too it is in general use. Canadians would be well advised to switch to the new product as it is a much superior food.

The eating of whole wheat bread cannot be recommended. It may help some people, but the great majority would be better off to avoid the intake of too much bran.

When Herbert C. Hoover was administering American relief to the Belgians in the last war he sought to obtain as much flour as possible from the wheat supplies. He found, however, that 81 per cent extraction was about the limit. He tried, in desperation, to squeeze more than 81 per cent of the wheat into flour, but the Belgian mortality increased immediately by 1,000 deaths, and the extraction had to be lowered.

Of course, this has nothing to do with Canada-approved bread, which has been carefully prepared on a scientific basis as eminently helpful and suitable for human consumption.

"Are they very strict at your college?"

"Strict? You remember Brown? Well he died in class, and they propped him up until the lecture ended."

He: "My doctor says I need glasses."

She: "How many a day, dear?"

Mr. Smith: "What does your husband like for breakfast?"

Mrs. Jones: "Oh anything I don't happen to have in the house."

"Where You Get More of the Best for Less"

Miss Vera Meldrum was operated on for appendicitis in the St. Michael's Hospital Tuesday night.

Fred Ralph is getting around now after his illness but is still weak and unable to do any work of any kind.

BE A PAL...
to your
Electric Refrigerator

DON'T MAKE IT
WORK OVERTIME

5
Temperature Saving
TIPS that save
Electricity too!

1. Don't open the door more than you have to, as door opening lets warm air rush in and gives your refrigerator more work to do.
2. Don't put hot foods in your cold refrigerator. This frosts it up unnecessarily. Cool foods first.
3. Save on Ice Cubes. You don't need to be stingy, but why empty trayful after trayful before you know your friends want beverages iced.
4. Don't have your refrigerator right next to the range. The cooler the spot the less your refrigerator has to work.
5. Don't let too much frost accumulate before defrosting. The excess frost acts as an insulator and wastes power.

Your electric refrigerator is constructed and mechanically engineered so that it will always maintain the exact temperature required for safeguarding the freshness and nutritive value of your foods. A little co-operation on your part, however, will increase its efficiency, lower its operating cost, and extend its years of service.

NEW ORDER TAKING FORM

In the short space of three years we have passed from a more or less free competitive economy to a completely government regulated one. This constitutes one of the most radical and far-reaching changes ever undertaken by a democracy in such a short space of time.

A price ceiling which freezes our economy as at a certain date provides the pattern for what is virtually a new economic set-up. I do not see how we can make a complete change back to the old order when the war is over. If we cannot and if we would want to—then the policies adopted now are to some extent shaping the economic balance of the future. It is therefore right and proper that we should continue to exert our efforts to work out a balanced and stabilized economy and a flexibility in ceiling prices which adequately recognize the special and seasonal nature of the agricultural industry.

Says Mr. Gordon, chairman War-time Prices and Trade Board:

"There are those who contend that war is the time when certain groups have their opportunity to remedy social injustices—real or fancied. There will be plenty of time to discuss the merits of these adjustments

GARBUTT BUSINESS
COLLEGE
CALGARY - ALBERTA

Small Boy: "What is college bred, Dad?"

Dad (with a son in college): "They make college bread, my boy, from the flower of youth and dough of old age."

Griffiths was the father of 12 children, and he decided to take them all to the seaside. They set off, reached the station, got their tickets, and were about to enter the train, when the proud parent was touched on the arm by a policeman.

"What have you been doing?" the constable demanded.

"Me? Why, nothing!" stammered the surprised man.

The policeman waved his hand toward the family. "Then why," he asked, "is this crowd following you?"

after the war."

I am afraid, however, that the future order is being fashioned even now faster than we know. It seems to me, there is much truth in the statement made by Prime Minister Mackenzie King when he said:

"If a new order is not under way before the war is over we may look for it in vain.—Wheat Pool Budget.

NATIONAL WAR LABOUR BOARD

GENERAL ORDER

The Dominion Bureau of Statistics has found that the cost of living index number for July 2, 1942, of 117.9 (adjusted index 117) has risen by 2.4 points over the index for October 1, 1941, of 115.5 (adjusted index 114.6).

Accordingly, pursuant to the provisions of Section 34 (1) of the Wartime Wages Control Order P.C. 5963, and subject to the general provisions of the Order, the National War Labour Board orders that employers subject to the Order who are paying a cost of living bonus shall adjust the amount of such bonus payment, and employers who are not paying a cost of living bonus shall commence the payment of such a bonus, both effective from the first payroll period beginning on or after August 15, 1942, as follows:

(a) If payment of a cost of living bonus is being made pursuant to the provisions of Order in Council P.C. 8253 (now superseded by P.C. 5963):

(i) For employees to whom Section 48 (iii) (a) of P.C. 5963 applies, the bonus shall be increased by the amount of sixty (60c) cents per week.

(ii) For employees to whom Section 48 (iii) (b) of P.C. 5963 applies, the percentage of their weekly wage rates, paid to them as a cost of living bonus, shall be increased by 2.4 points:

(b) If no cost of living bonus is being paid, the payment of such a bonus shall be commenced:

(i) For employees to whom Section 48 (iii) (a) of P.C. 5963 applies, in the amount of sixty (60c) cents per week.

(ii) For employees to whom Section 48 (iii) (b) of P.C. 5963 applies, in the amount of 2.4% of their weekly wage rates:

(c) In no case shall the amount of a cost of living bonus adjusted as stated exceed a maximum of \$4.25 per week to employees to whom Section 48 (iii) (a) of P.C. 5963 applies, and of 17% of their weekly wage rates to employees to whom Section 48 (iii) (b) of P.C. 5963 applies:

(4) (i) For employees to whom Section 48 (iii) (a) of P.C. 5963 applies now being paid a cost of living bonus, not pursuant to the provisions of P.C. 8253, established prior to the effective date of that Order, in an amount exceeding \$4.25 per week, the amount of the bonus shall remain unchanged.

(ii) For such employees now being paid a cost of living bonus of less than \$4.25 per week, the amount of the bonus shall be increased up to sixty (60c) cents per week, but in no case to exceed a total weekly bonus of \$4.25:

(5) (i) For employees to whom Section 48 (iii) (b) of P.C. 5963 applies, now being paid a cost of living bonus, not pursuant to the provisions of P.C. 8253, established prior to the effective date of that Order, in an amount exceeding 17% of their weekly wage rates, the amount of the bonus shall remain unchanged:

(ii) For such employees now being paid a cost of living bonus of less than 17% of their weekly wage rates, the bonus shall be increased up to 2.4 points, but in no case to exceed a total weekly bonus of 17% of their weekly wage rates:

(e) The adjustment or payment of a cost of living bonus calculated as ordered shall be to the nearest cent of any fractional figure:

(f) Employers in the construction industry shall adjust the amount of any cost of living bonus required by paragraph (a) of this order only for employees in respect of whom no special bonus arrangement has been made with the approval of a War Labour Board, pursuant to the provision of the Order for the conduct of the National Joint Conference Board of the Construction Industry.

Ottawa, Ontario,
August 4, 1942.

HUMPHREY MITCHELL,
Chairman, National War Labour Board.
